

Video Editor

The **Video Editor** will edit, produce, assemble, and deliver high quality video content with cohesive, well-told stories. The ideal candidate has mastered the ability to produce large volumes of high-quality videos in a fast-paced environment, and is a skilled project manager with impeccable communication skills.

This **Video Editor** will create visually appealing storyboards, 3D animations, and much more for internal and external clients alike, to promote their products, and enhance our brand company wide. As video has become the best way for communicating company's messages on online platforms, this position will play an essential role in our company's success!

Primary Responsibilities:

- Create, edit, produce, and deliver video products in line with brand and quality standards.
- Add special effects, animation, and audio, while ensuring the video is compressed for output and optimized for production, publishing, and distribution
- Develop and implement efficient video production practices to maximize efficiency
- Select and integrate titles, backgrounds and animations
- Remain abreast of technology directions, initiatives and trends within scope of expertise to provide ideas, guidance and recommendations
- Maintain organization and filing system for final video products and original/raw footage
- Maintain correct and consistent usage of the EETech Media brand and marketing standards

Required Skills/Education/Experience:

- 3+ years experience editing various video projects, inserting sound effects, music and transitions
- Ability to understand the desired outcome of a project and bring them to life
- Project management and organizational skills
- Detail-oriented approach with ability to work under pressure to meet deadlines
- Experience with Google tools (Drive, Slides, Sheets, Docs, etc.)
- Strong technical skills, and experience with Final Cut Studio, Adobe Creative Suite Video Editing software, AfterEffects, and AVID, among others
- Experience with an agency or within a creative department is highly desired

Perks:

Please email your resume and a brief cover letter to careers@innovuze.com.
